In sum up...

A imersão linguística teve um saldo positivo uma vez que foi possível renovar o meu vocabulário, aspectos gramaticais que já não lembrava mais, pois já havia alguns anos que eu não me dedicava ao estudo da língua inglesa, além de todo o aprendizado humano que tive com os canadenses no contato diário com sua cultura.

E posso dizer que o fato de morar num país onde a língua é nativa foi um fator decisivo para o êxito nesse desafio que me lancei, e me encorajou a me preparar para os próximos que virão na minha vida.
